OCEAN ALEXANDER®

ENGINEERING GONE ELEGANT

Fine engineering is what made our mark on the world. Engineering keeps Ocean Alexander high on every list for performance, longevity and market value. It's why captains and crews love us. It's why owners choose us more than once.

Buying a yacht demands investigation, intelligence and a rigorous set of standards. But we know there's more. The right boat will work its way into your psyche and into your dreams.

So question the 88. Look into every aspect of her engineering, all four of her staterooms and her impressive crew quarters. Charge your captain to do a thorough checkout. The 88 invites all that and more. And when you're done, you'll find she's stolen your heart.

SPACIOUS

Just outside the aft double doors is the reason everyone loves a yacht: the world looks brand new when you've escaped to the water. The Ocean Alexander 88 helps you take full advantage of it.

The aft deck can handle a busy family, including dogs and kids, with custom safety gates to keep them from accidentally entering the transom. Eight can enjoy dinner outside, and the built-in wet bar makes it a spot to feature when you're entertaining. The 88 can accommodate your guests, charming them with its big views from the salon and every deck.

SMART

What you see is a stunning saloon with custom furnishings, but look closer. We've obsessed over every detail.

The cabinetry isn't merely lustrous and beautiful. Each cabinet latch is meticulously engineered to last for years of constant use, and accounting for rough weather, when contents may strain against cabinet doors.

We've built in hidden spaces for storage, including pullout drawers that look like part of the sofa. A large hidden TV folds down on command from the ceiling.

Our engineers designed an innovative solution to bring you the huge, unobstructed views you see here. Using marine-grade aluminum beams, they've eliminated unnecessary window framing. For times when you'd prefer privacy, shades will cover these massive windows.

WELCOMING

Your dinner parties have just become legendary. The 88's custom dining table seats eight easily. Your chef can style it as the ultimate canvas for a spectacular buffet or an intimate gathering for close friends.

The cabinetry surrounding the dining table holds another advantage: custom-fitted compartments that keep each piece of china, stemware and silverware securely nested to protect against breakage and sound when the boat is underway.

A beautifully lit day head is cleverly concealed on the opposing bulkhead and gives your guests a little escape without the interruption of privacy of any guest staterooms.

SECLUDED

The 88's full-beam master rivals owners' quarters on much larger yachts. Big frameless windows keep this suite filled with light during the day, and electronically controlled screens keep it private at night.

Ocean Alexander pours its talent for fine amenities into this space, and there's some imaginative flexibility in how you can order your private stateroom to look. We offer the choice of a built-in settee, a chest of drawers, or a custom-fitted lit vanity for your consideration.

We've helped you plan for longer stays on board with roomy closets. Inside, you'll find chests of backlit drawers, cedar lining, and full-length hanging rods and dressing mirrors.

SPARKLING

Ocean Alexander commissions a proprietary glass for the shower in the master his-and-hers head because we insist on superior transparency and light reflection. We've made sure this beautiful room feels open and airy by replacing traditional port lights with bigger, clearer windows and larger-than-standard mirrors. The mirror backlights feature dimmers for extra control.

Inside the shower, one textured solid slab of marble forms the floor, leaving no cracks for water intrusion. It's almost imperceptibly tipped to encourage excellent drainage.

FEATURES

- * Twin MTU powered, Glendinning joystick docking with Station Keeper position and heading hold system
- * Twin Onan Gensets
- * Garmin Glass Bridge electronics with triple supersize 44" screens
- * Hydraulic Bow & Stern thrusters
- * Sidepower curved zero speed fin stabilizers
- * Hydraulic hi/lo swim platform
- * Sea Recovery water maker
- * Ecomar waste treatment system
- * Octoplex electrical management system permits the operation of the boat's electrical systems from a tablet or smart phone!
- * Sonos Audio, Apple TV & Foxtel
- * 4 Cabin & 4 bathroom lower deck guest accommodation layout (plus spacious twin cabin aft crew accommodation)
- * Spacious saloon and formal dining area – supersize saloon glazing
- * Large galley with full size appliances and forward dinette
- * Large Full beam mid-master with supersize hull side picture windows – dual walk in robes. Impressive full beam master bathroom with heated marble floors!
- * Huge skylounge entertainment area, wet bar and jacuzzi! Foredeck sun lounging area
- * Removeable shade systems above swim platform and aft of skylounge

SPECIFICATIONS

Maximum Length	26.83 M (88')
Maximum Beam	6.1 M (20' 1")
Draft	1.8 M (5' 11")
Weight	78,000 KG (approx.)
Fuel Capacity	9,460 L (approx.)
Water Capacity	1,320 L (approx.)
Holding Tank Capacity	757 L (approx.)
Generators	Twin Onan Gensets @ 29kw each
Power	Twin MTU 10V 2000 @ 1600 HP each

COMFORTABLE

All yachts feel luxurious sitting quietly at anchor. Ocean Alexander puts a priority on keeping your guests at ease when the 88 is underway.

Over decades we've developed proprietary approaches to preserving the quiet and comfort on our yachts. We build in multiple insulation barriers. We use absorptive and dampening materials. We plan for strategic air pockets, flexible mounts and isolation mounts. The result is vibration/sound levels that lead the industry and measure dramatically less than ISO requirements specify. In certain areas, our noise levels are 90% quieter than industry standards.
